The Causes.  
Special to DAILY BULLETIN.

FRANKPORT KY., Jan. 23, 1884.—The caucus adjourned until 7:30 this evening after taking four ballots, the last of which resulted as follows: Williams, 52; Blackburn, 45; Sweeney, 24. There seems to be no immediate prospect of a break as all the forces stand solid to their respective candidates.

Common School Bill.

Hon. J. D. Kehoe has kindly furnished us with a copy of the school bill reported by the special committee appointed by a resolution of the State Senate at the session of 1881-82, and which is to be considered at the present meeting of the Legislature. In preparing the bill the committee have incorporated many of the provisions of the present law with such changes as experience has demonstrated to be necessary for a more satisfactory working of the system. The county is taken as the unit instead of the school district, for the reason that it is provided with the requisite number of officers to carry into effect the provisions of the bill according to its intents and purposes, and each county is empowered to vote upon local taxation and when a tax is imposed it is to be divided among all the common school children of the county giving to each one, white and colored, the same per capita. The Commissioner is to be elected by the people of the county, instead of by the Justices of the Peace. His compensation is to be fixed by the County Court of claims and based on the services he performs. The trustee is elected by the voters of his school district and is obliged to serve whether willing or not, and is liable to be held responsible for any failure in the discharge of his duties. The whole number of children in the State is to be reported to the Superintendent of Public Instruction and when the per capita is declared the per capita for each child in the county is sent by the Superintendent to the Commissioner of the county and the money is then to be divided by the Commissioner and County Judge among the children who actually attend school in this county. Each district is required to provide itself with a good school house and suitable furniture and is empowered to levy a tax for such purpose, and it is made the duty of the trustee to see that this is done. The bill provides for a uniform series of textbooks to be selected by the Governor, Secretary of State, Attorney General, and Superintendent of Public Instruction, who may in their discretion enter into a contract with any publisher to furnish the books to the people of the State at fixed rates and prohibiting booksellers from charging more than a fixed per cent. profit sold by them, and the books so selected are not to be changed otherwise than once in five years.

Hon. J. D. Kehoe.  
Bracken Bulletin.

The following concerning Hon. J. D. Kehoe, Representative from Mason County, we clip from the Cincinnati Enquirer:

"I had an informal talk with Hon. J. D. Kehoe, member of the House from Mason County."

"Mr. Kehoe is in the way," he said, "in the line of politics, and quite extensively talked of as the next Democratic candidate for Governor from the State. He is a Western man, a 'hustler.' He would not be all surprised to see him do well. He is a hard-working member and does his duty."

Mr. Kehoe has been a good legislator, always looking after the welfare of his constituents, and especially the poor working man, he being a mechanic himself. We have no doubt he would make a fine senator, as he would look after the interests of the people, and we hope at some future time, to be able to grasp his honest right hand and to know we are shaking the hand of Congressman Kehoe.

What Would a Woman Do?  
Richland Courier.

If store keepers wouldn't cut off samples?

If she couldn't taste hard in a rival's store?

If she should forget to look under the bed for a man?

If she had to wear boots that didn't cramp her toes into a peak?

If speaking English would suddenly drop to \$2 a week?

If she couldn't reductively scratch her head with a knitting needle?

If her husband should offer to get up once and quiet the howling baby?

If her husband should forget himself to remember to bring up a yeast cake?

If she couldn't say anything when her husband came into the house without brushing the snow off his feet?

Her "Egregius Were Recendite,"  
Stanford Jonson.

The following is the report of the Crab Orchard colored school trustees to Commissioner of Education: "The object is to get that the school be kept to the full five months and our teacher has been an earnest worker during the time. The children have learned rapidly owing to their chances. All studied with a view to their education and we are anxious to have them recendite. All are pleased with the improvement of their children. The quintessence has been taught this term and we highly recommend our teacher to any district school." Signed, John W. Crews, Chas. H. Hubble, John Tucker, Matie A. Dishman, teacher."

DEVIL'S BRIDGE DISASTER.  
Officers of the Ship Trying to Shift the Responsibility.

ENRICO, Jan. 23, 1884.—The officers of the ship trying to shift the responsibility for the accident say that the City of Colonia did not strike on Devil's Bridge at all, but on a muzzel bed situated 300 feet outside the buoy of the bridge. They say further there is but one cause of the accident, and that is that Captain Wright was correct when he said he saw a buoy on the steamer's port bow at the time she struck.

Quinton Parker McDonnell, the man at the wheel when the accident occurred, has been reported as having said that when off Notska Light Captain Wright gave him the course to follow as southwest by west, and that until that course until the vessel struck the rock.

Captain Wright admits that he was correctly quoted as far as changing the course of Notska is concerned, but says he was not the one to do it. In this report he told the second mate to change his course to west southwest when the ship should be of Tarpaulin Cove Light, and in his opinion this was not done; hence the wreck.

THE MORMONS CONFIDENT.

Saint Cannon Makes a Speech About the Mormons.

OXFORD, Utah, Jan. 23.—At the quarterly conference held here all the speakers were steadfast to the prophecies of creed, and defiant to the Government. George Q. Cannon, the speaker, said: "They talk of the Left wing. Let me tell you, the Left wing is the whitest in England. It is dying of congestion of the lungs."

The explosion of a coal oil lamp at Hot Springs, Ark., caused a fire in the buildings owned by Harry Huff and occupied as a boarding house, grocery and room room. Loss, \$10,000; insurance, \$5,000.

Half the house property of Chas. George, County, Mich., was destroyed by fire Monday. The stores of N. W. Mann, J. C. Moore & Co., D. N. Parks & Son, and A. S. Randlett and other buildings were consumed.

The street cars continue to be well patronized.

It has been suggested that Mr. N. Cooper's new tobacco warehouse could, with little change, be converted into a handsome hotel building.

Mr. GEO. Cook, a Maysville mechanic, has been awarded a contract to paint the bridge over Licking river at Sherburne, Fleming County. The work is sure to be well done.

There will be preaching in the M. E. Church, South, in Sardis, next Sunday, the pastor taking as his subject "The Design of Christian Baptism," and denouncing that it is the remission of past sins. All are invited.

We know of several building lots in this city that are assessed for taxation at \$100 each, and for one of them \$700 has been refused by the owner. This is another instance of the unfair valuation of the city property for taxation.

The next thing on the docket is the "regulation" of our "city scavenger." The public is looking forward with intense interest to the development of the brilliant schemes for the management of this rancorous feature of Maysville life.

It is probable that many new buildings will be put up in Maysville next season. Mr. Charles H. White contemplates making some handsome improvements. The improvement of the opera house by the Washington Fire Company is also talked of.

Fixtural rooms of Drs. Smith & Wade have been handsomely repaired. The papering which is especially attractive is the work of Mr. James Smith Jr., who is an artist in his line. It is a real pleasure to have a tooth pulled amid such handsome surroundings.

Rev. S. E. WICHARD, who has had large and successful experience in religious meetings will begin a series of services in the Presbyterian Church, on Third street, in about ten days, assisting the pastor, Rev. S. B. Alderson. There will be preaching at the chapel to-night.

To supper at the M. E. Church, South, in Chester, on Friday and Saturday evenings, given by the ladies of the church for the purpose of raising funds to buy an organ for the Sabbath school, promises to be a very pleasant occasion, and will, no doubt, be well attended. The admission is only ten cents. Let everybody go.

Some of the leading friends of education, in this city, are considering the feasibility of establishing, in Maysville, a first-class female college, to be under the management of one of the best educators in the State. The plan, we learn, is to organize a company with a capital of \$40,000, and to buy property suitable for a school or to put up such a building as will answer the purpose. The scheme meets with favor and there is a prospect that it will be successfully carried out.

The best plan we can think of for the "regulation" of the city "garbage removers" is to make hog shepherds of the Councilmen in each ward. Let them be provided with crooks, brooms, and buckets, assigned flocks in their respective districts, and held responsible for the good behavior of the porters under their charge. As compensation for their services let them be entitled to take as their own property all the runts in every litter that arrives during the season. We submit this plan and recommend it as a good one.

Miss Letch's terms for instruction in wood carving and brass work are very low being about one-half of what is usually charged for such work. One lesson of three hours each day for one month costs \$16; for three days of each week for one month costs \$9, and for two days a week for a month costs \$6. Ladies will be taught through the day and gentlemen three nights of each week, and on alternate nights there will be a course for ladies, and if desired arrangements will be made for giving lessons at the residence of the pupils. The tools for wood carving cost \$3 and for brass work \$2. The work done by the pupil during the course, in many cases is worth largely more than the cost of instruction. Those who wish to enter the class should call at Phister's book store and see specimens of Miss Letch's work.

**CONGRESSIONAL SUMMARY.**

House.  
Mr. Calhoun (Ga.) moved to suspend the rules and pass the bill to regulate the practice on patent cases. It provides that the innocent purchaser of a patented article, where the damages are less than twenty dollars, shall not be liable for patent fees. The bill was passed. Mr. Conklin (N.Y.) moved to suspend the rules and pass a bill repealing the oath known as the "iron clad oath." Mr. Boutelle (Mass.) proposed the resolution. Mr. Conklin pointed out the oath did not apply to Southern men as another oath was prescribed for them. All that the bill provided was to give Union men the same right as Southerners who were on the side of the Union. In the course of his remarks he said that oath was breaking, and said that Talleyrand swore thirteen times to support as many different causes.

The rules were suspended and the bill passed 181 to 11. At 6 P.M. the House adjourned.

Mr. Tucker (Va.), from the Judiciary Committee, reported a bill to regulate lotteries and gambling, without any recommendation, in order that the House should decide whether it or the Committee on Public Lands, which has several bills of this character before it, should have consideration of the subject. The bill was sent to the House calendar.

Senate.

Cameron (Wis.) reported back from the Committee on Indian Affairs all the petitions and memorials in regard to opening up the Indian lands for white settlement.

He introduced a resolution, which was agreed to, instructing the Committee on Post Offices and Post Roads to inquire into the expediency of additional legislation to prevent the circulation in mails of lottery advertisements coming from foreign countries.

The resolution of Anthony, relating to the removal of the United States mints from foreign ports, was taken up. He spoke in favor of an amendment extending the inquiry as to the tariff laws of France, Germany, Mexico, and Brazil, which discriminate against the United States.

**THE DEAD DOG.**

peculiar Religious Ceremony of the Onondaga Indians.

STRATFORD, Conn., Jan. 22.—The Onondaga Indians buried their "dead dog" yesterday in the council house on the reservation. The sacrifice is annually made by the tribes of the six nations to propitiate the Great Spirit. The first was made in the morning. Two little boys stood before the council house, each alternately firing a shot gun, accompanying the report with a peculiar cry like the barking of a dog. All the Indians, the braves, the squaws, both pagan and Christian, were present, decked with feathers and gaudy ornaments. The dead dog was placed in the council house, and was surrounded with arrows whicohs to invoke the blessing of the Great Spirit. The dog was then placed in the stove and burned, while the braves sang songs and the squaws yelled.

New York's Statue of Liberty.

New York, Jan. 22.—The committee of the Bartow-Pelzer Fund are annoyed over recent stirrings in a paper in Taron on American apathy and ingratitude in regard to subscriptions for the Relief Fund. Contributions have recently been made which is half the sum needed, and there has yet been no organized solicitation for money. The committee has contracted for stone for the pedestal, and will lay a stone for each State and Territory, with the various coats-of-arms engraved thereon. The statue will loom above the Brooklyn Bridge towers and be as high as Trinity Church steeple.

**A Bad Railroad Smash.**

MACON, Ga., Jan. 22.—The cannon ball express, due here Monday morning, struck a bridge at the junction of the two roads and one sleeper and two coaches were wrecked. There were fifty passengers on the train, many of whom were injured, but only six severely.

An Orange Leader to be Prosecuted.

ORANGE, Jan. 22.—It is reported here that the Orange Leader is about to prosecute Stuart Knox, the Orange Grand Master of County Tyrone, for the active part which he took in the Orange meeting and riot at Dromore on the first instant.
